CARLO ALBERTO

Carlo Alberto sofa was designed to combine comfort and design. We can mix it with other items from our collection to create a customized composition. This sofa is extremely soft, thanks to the density of the seat cushions padding and to the Dacron Dupont used for the back cushions. It is also very elegant, thanks to the special shape of its legs and their finishing in satin brass. Other types of finishing are also available. What a timeless charm! Available custom made.
