FOLIES WOOD

Folies Wood is characterized by wooden legs, that give it a classic, elegant but at the same time fierce look. You can even opt for unusual covers and your chair will show its vibrant personality, always with a soft and cozy seat. The little Folies Wood chairs can even be realized with an additional seat cushion. This will make your Folies' fabric cover fully removable. Folies is actually a series of upholstered items, that are perfect both in the home and contract sector – small sofas, chairs and corner sofas, club, love seats and pouffes.
