Our Company

We are a modern and versatile company, and we manufacture all of our high quality furnishings in our headquarters in Torbole Casaglia (Italy), around 80 km from Milan.

Mazzoli in the World

Our structure allows us to export our products worldwide.

For many years we have contributed to make the world appreciate the Italian *savoir-faire*.

Quality

Particulars are important. Artworks are flawless combinations of perfect details. For this reason, every single Mazzoli product is constantly perfected, from design to delivery.

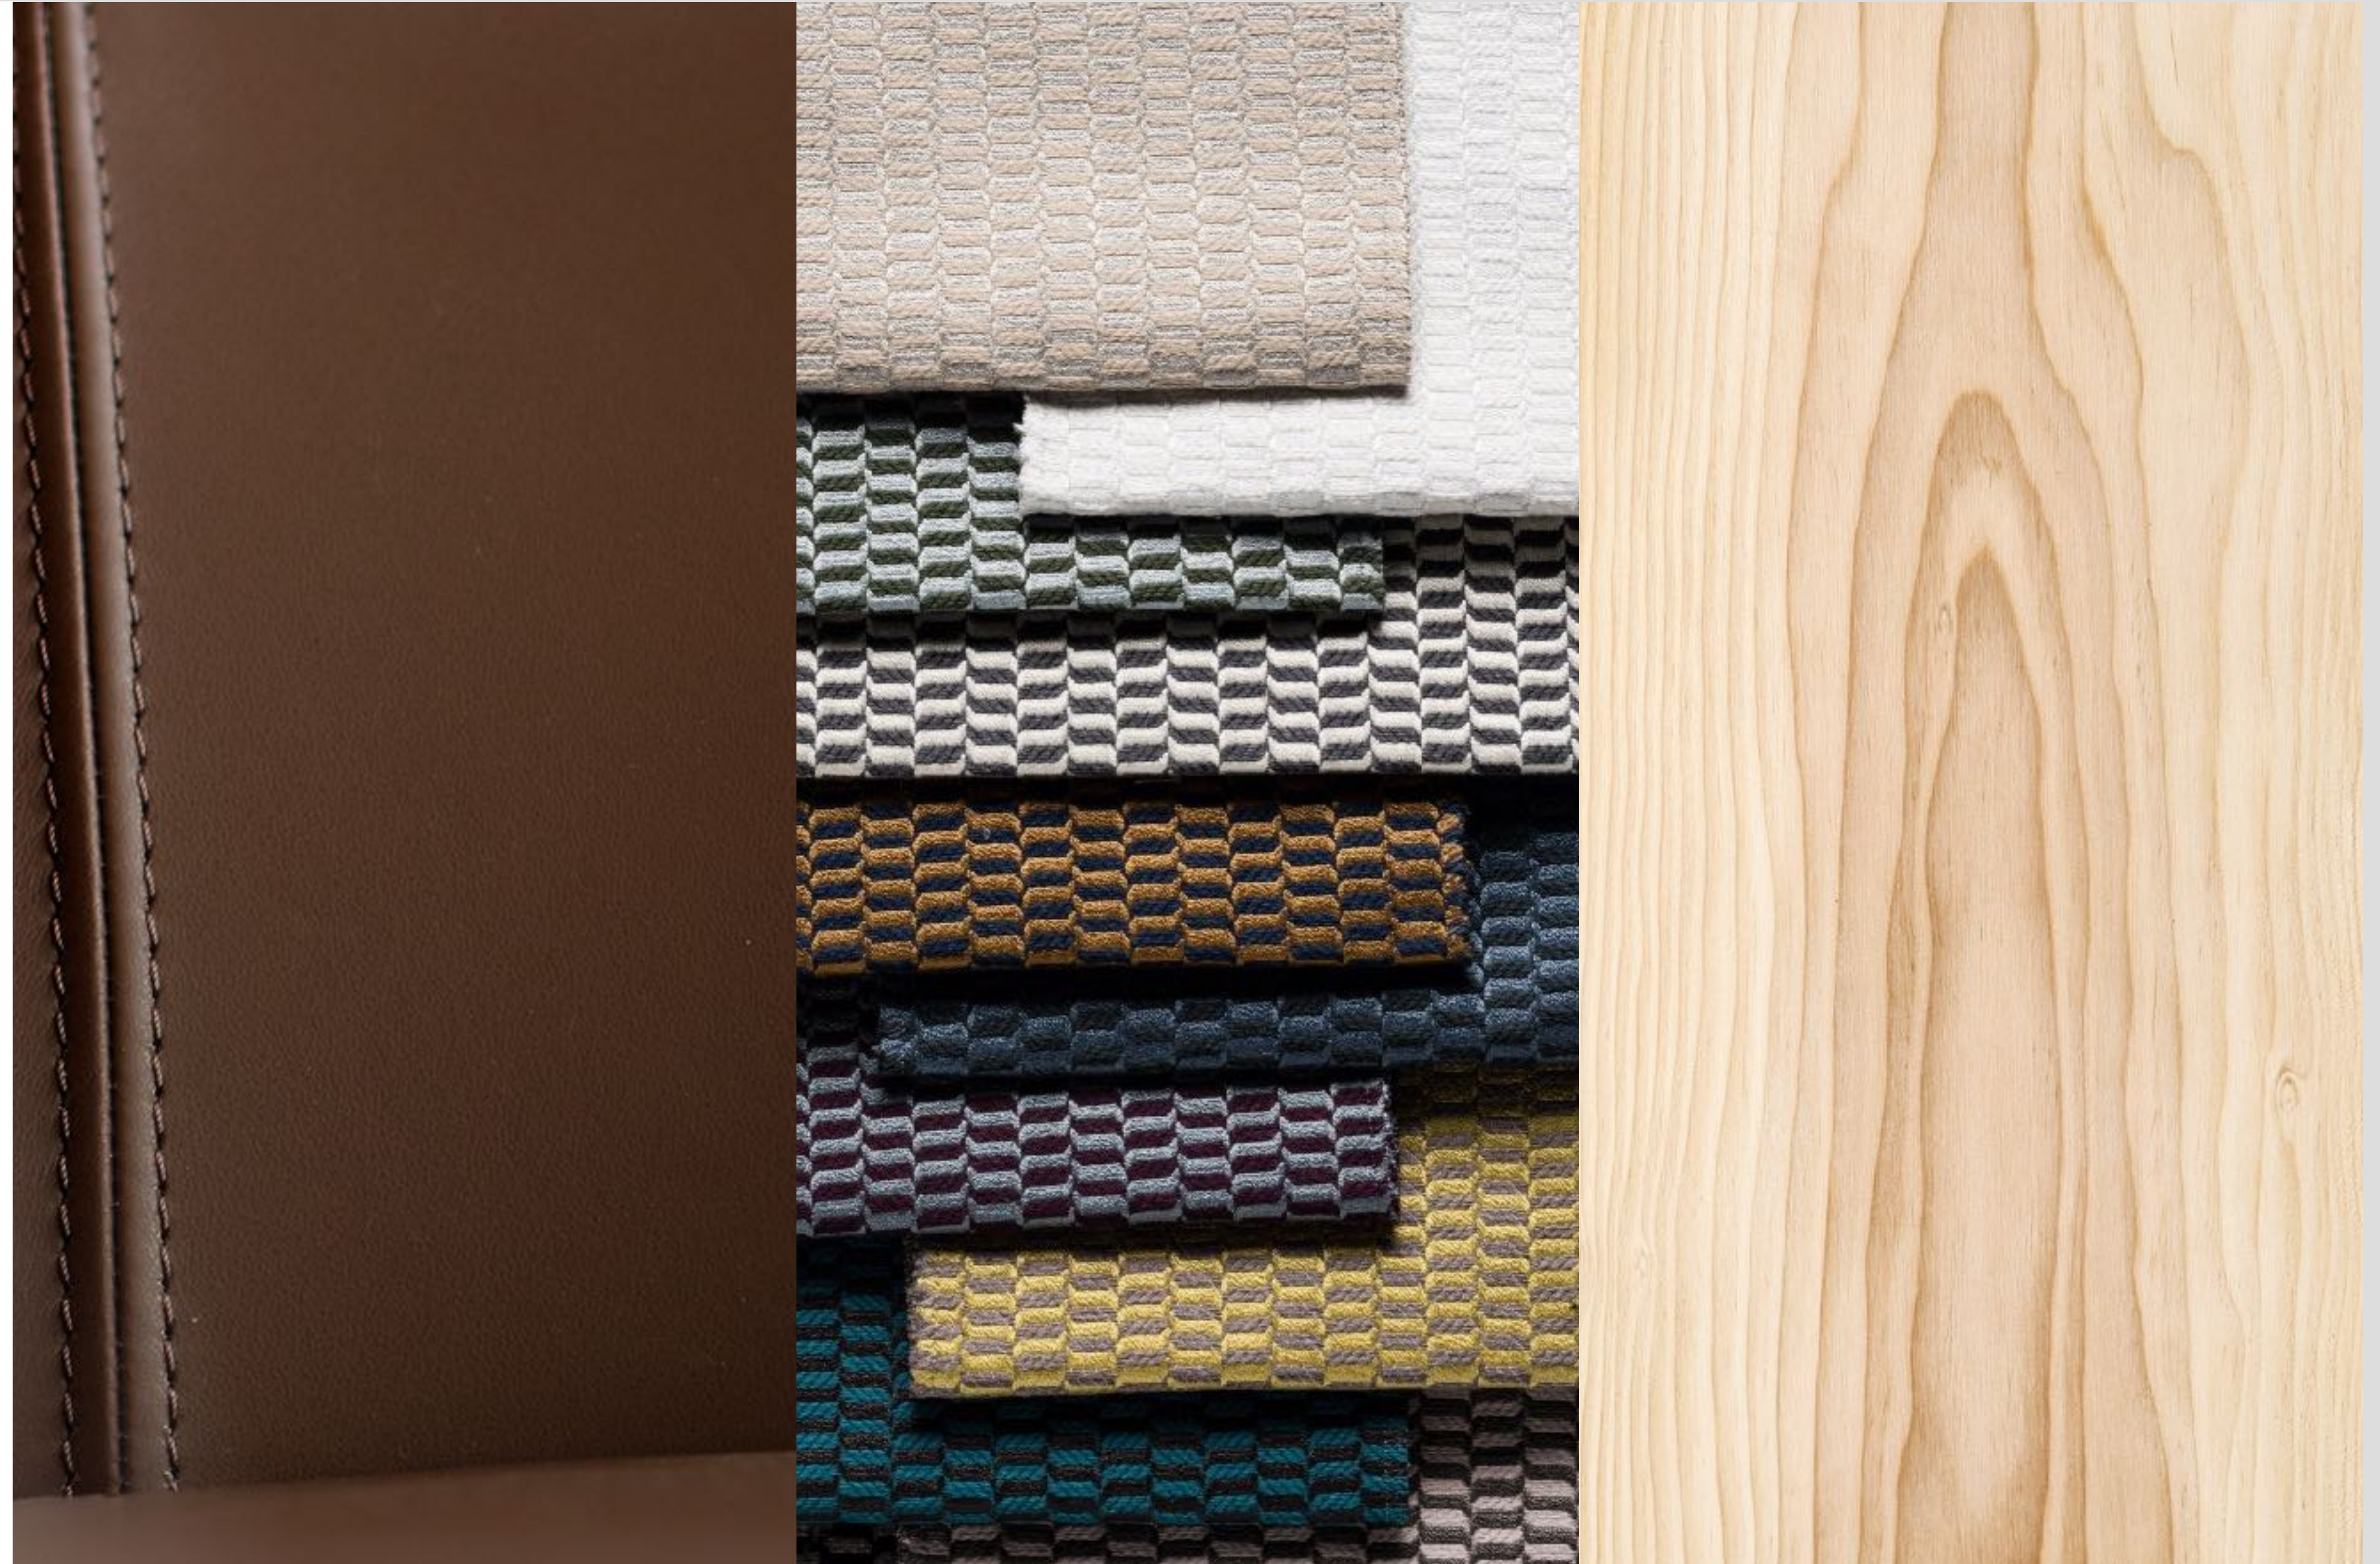

Material selection, production and assembly procedures undergo painstaking quality controls – and this is what makes each and every object impeccable.

Materials

Raw materials are fundamental components for the realization of high quality products.

Therefore, we select materials for all of our products with care, passion and experience.
